Plan de Recuperación Transformación y Resiliencia (PRTR)-Next Generation

Paradores is a state hotel net created in 1928 as a support of the tourism development in Spain, from that moment on the Paradores has increased up to 90 buildings, half of them located in historical buildings or at historical sites.

These Paradores hold the highest level of Cultural Heritage protection according to the Spanish State legislation on Cultural Heritage and their conservation and rehabilitation are essential to preserve the Spanish rich cultural and artistic heritage.

The conservation works have received a major boost thanks to the Recovery, Transformation and Resilience Plan (PRTR): the finance programme designed by the European Union to drive economic and social development in Member States after the Covid 19 Pandemic.

More specifically, the conservation and rehabilitation measures on historic heritage sites and buildings for touristic use, including the Paradores, are part of Component 14 focused on Tourism as a tool to drive economic development.

The Paradores historical buildings belong to the Spanish Tourism Institute (TURESPAÑA), a State institution tasked with the promotion of Spain as a touristic destination and to drive economic, social and environmental sustainability of national destinations.

The project led (managed) by TURESPAÑA will operate in 39 Paradores located in historic buildings and complexes in the Autonomous Communities of Andalucía, Aragón, Asturias, Castilla La Mancha, Castilla y León, Cataluña, Extremadura, Galicia, Madrid, Murcia, Navarra, País Vasco and the autonomous city of Ceuta.

The conservation works are focused on the historical areas open to the public.

PARADOR OF LA GRANJA

The current inn is located in two 18th century buildings, the former Casa de los Infantes and the General Headquarters of the Corps Guard.

The two buildings are located in the Royal Site of the Palace of San Ildefonso, which includes the gardens and other areas.

The Royal Site has been declared a National Monument since 1925.

All of this is part of the City's Historic Artistic Complex with protection since 1982.

CONSERVATION ACTIONS FINANCED WITH NEXT-GENERATION FUNDS

The project will carry out interventions in different areas of the two buildings, focusing on the restoration of facades and cornices.

Conservation works include:

- Cleaning and restoration of facades.
- Specific repairs to detachments and roof cribs.
- Elimination of specific humidity problems.

The estimated duration of the intervention is 8 months, with an approximate cost of €400,000.
